Dear Mr. Boyles:

**RE: Chemung County Landfill Permit Modification Appl. - Tonnage Rate
Increase DEC ID# 8-0728-00004/00013
Town of Chemung, Chemung County
Special Waste Characterization Profiles #2060 and # 2067**

This letter serves to confirm my verbal request for additional information for the two waste streams referenced above. This request is made pursuant to 6 NYCRR 621.14(b), which states, "At any time during the review of an application for a new permit, modification, or renewal, the department may request in writing any additional information which is reasonably necessary to make any findings or determinations required by law. Such a request must be explicit, and must indicate the reasonable date by which the department is to receive the information. Failure to provide such information by the date specified in the request may be grounds for permit denial."

This office has/is requesting the following information for the two waste streams;

- 1) A description of the liquid involved in the spills and details on how the spills occurred. For Profile # 2067 please indicate if the liquid was spilled before or after being filtered with the 20 micron filter at the site of the spill.
- 2) A copy of any Pennsylvania DEP spill reports that were generated as a result of the spills.
- 3) A copy of the most recent analytical data provide to the WWTP at which the liquids were most recently disposed.

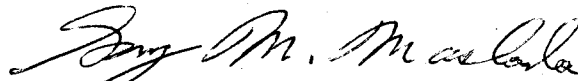

- 4) An estimation of the volume of liquid that was (a) involved in each spill, (b) recovered in each spill, and (c) absorbed by the soil in each spill.
- 5) The of amount waste accepted for disposal from each spill,
- 6) Radiological analysis of the liquid currently in the storage tanks of the wells that generated the liquid involved in the spills.
- 7) The result of any and all analytical analysis of samples taken from the waste before it was disposed of in the landfill.
- 8) Any other information or chemical analysis your company, or the generator of the waste believes would improve the Department's understanding.

Please note the Department acknowledges that some of this information has already been provided. However, the additional requested information is necessary for the Department's evaluation. We are also asking that all the requested information be submitted as one report in the interest of clarity.

Please submit this report no later than June 1, 2010.

If you have any questions regarding this request, please contact me at (585) 226-5414.

Sincerely,

Gary M. Maslanka
Environmental Engineer
Division of Solid & Hazardous Materials
